

Say goodbye to grime, grease and goo.

Advanced Protector with Teflon™ carpet protector helps defend your carpet against those unplanned accidents that seem to occur in today's busy, active everyday world.

From nasty oil-based stains like skin lotion, salad dressing or an upturned plate of spaghetti...

To tracked-in dry soil from boots, sneakers, or a toppled plant...

To accidental water-based spills like ketchup, fruit drink or popsicle drips...

Advanced Protector with Teflon™ carpet protector keeps working long after it's been applied.

Life goes on... on Advanced Protector with Teflon™ carpet protector.

Life's full of surprises in this everyday world of kids, pets, spills and splatters. And who has time to worry about the daily threats your carpet and furniture must face? Who wants to?

When you protect your carpet with Advanced Protector with Teflon™ carpet protector, you get a measure of assurance that helps diminish these concerns. Your carpets stay cleaner longer because Advanced Protector with Teflon™ carpet protector is on the job protecting against soil and stains—so you don't have to.

How it works

Quick-drying Advanced Protector with Teflon™ carpet protector is applied as a spray onto your freshly cleaned carpet by your professional carpet cleaner. With each application, Advanced Protector with Teflon™ carpet protector creates a powerful, invisible shield around each fiber to keep dirt, dust and liquids from lodging within the carpet. It also works to reduce soiling on water-safe upholstery fabrics.

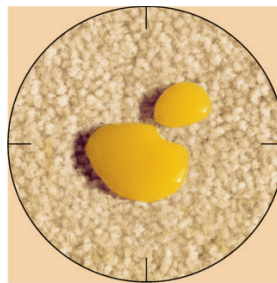

The same Chemours Teflon™ brand technology that keeps foods from sticking to your pots and pans prevents those inevitable spills from sticking to your carpet or upholstery. When you have Advanced Protector with Teflon™ carpet protector applied, you have the assurance your carpet are protected with a tried, true and trusted premium-quality product.

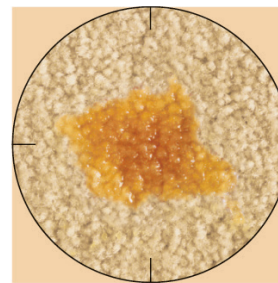

And, because of its outstanding repellency, Advanced Protector with Teflon™ carpet protector gives you more time to clean up and remove spills and dirt before they are absorbed into your carpet. Follow these simple tips for easy clean up:

- Solid and semisolid spills should be scraped lightly with a table knife to remove the excess.
- Liquid spills should be blotted up immediately with a towel or absorbent cloth.
- If spills dry or are forced into the carpet, they should remove easily using normal cleaning procedures. Be sure to rinse thoroughly with water to remove residual cleaning materials.

Treated

Untreated

Note: Advanced Protector with Teflon™ carpet protector provides excellent repellency on carpets of all fiber types, including wool. Results as pictured above may vary depending on the condition and style of carpet treatment.

Where to use it

Chemours recommends the application of Advanced Protector with Teflon™ carpet protector on all carpet types and on water-safe upholstery fabrics. Remember, even if you have carpet with built-in soil and stain protection, you should use the after-market protection of Advanced Protector with Teflon™ carpet protector to assure continued soil and stain protection after your carpet or upholstery has been professionally shampooed or steam cleaned.

Wondering about protecting your valuable wool car- pets? As stated above, you can use Advanced Protector with Teflon™ carpet protector on all types of carpets –even wool.

Safe for use around people and pets

Advanced Protector with Teflon™ carpet protector is nontoxic and safe for use around your family and pets. It leaves no odor or residue and is CFC- and solvent-free.

Treated carpet makes life easier

Treating your carpet with professionally applied Advanced Protector with Teflon™ carpet protector after a cleaning means treating yourself to less work, fewer worries and the satisfaction of brighter, cleaner, newer looking carpets . Plus, cleaner, fresher looking carpets make your whole house feel clean –and that's a very good feeling!

Advanced Protector with Teflon™ carpet protector lets you enjoy carefree living every day...kids can be kids, and life's little surprises can be far less surprising.
